# Jury Members

What are the responsibilities of a jury member?

As a jury member, your primary task involves evaluating the solutions developed by the teams based on pre-defined criteria and selecting the two winning solutions for the hackathon.
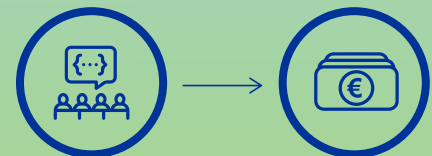

You will actively participate in the pitch presentation and awards ceremony, scheduled for Saturday from 17:30 to 19:00 CEST. During this event, all teams will showcase their solutions, after which the jury will engage in voting and deliberation to determine the winning teams.

What can you expect to receive?

You will be provided with comprehensive instructions to ensure smooth implementation of the evaluation process and deliberations, while ensuring adherence to standard criteria across all hackathons.

For each hackathon you participate in, you will receive remuneration amounting to €200.

When is your participation expected?

The hackathons are scheduled to take place during May and June 2024. Jury members can engage in multiple hackathons based on their availability and expertise.

MAY-JUNE 2024
